Ms. Rose M Harrelson
Vista Analytical Laboratory, Inc.
1104 Winfield Way
El Dorado Hills, CA 95762

Dear Ms. Harrelson:

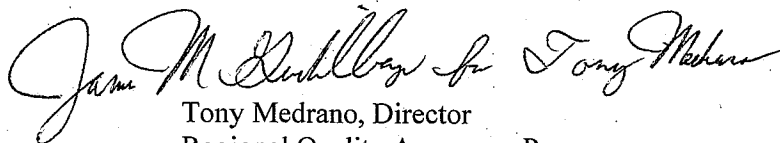

In accordance with the authority as stated in 40 CFR 141 and 142, EPA Region VIII staff has reviewed your request for reciprocal certification for drinking water contaminants along with the documentation that was attached. In accordance with the recommendation of my staff, I hereby grant **reciprocal certification** for the State of Wyoming and all tribal public water systems in EPA Region 8 to Vista Analytical Laboratory, Inc. located in El Dorado Hills, California for the parameters listed below. This reciprocal certification is based on the NELAP accreditation of your laboratory by the State of California and on the performance of your laboratory in the analysis of Proficiency Testing Samples.

Parameter	Method 1	Method 2	Cert. Begin Date	Cert. End Date	Cert. Status
Group: Synthetic Organic Contaminants Phase V					
2,3,7,8-TCDD (Dioxin)	1613		2/1/08	2/28/09	Reciprocal

The expiration dates for each parameter are listed in the table above, for the State of Wyoming and all tribal public water systems in EPA Region 8. Certification will remain in effect for that period specified under the conditions that the laboratory remains accredited by the State of California for all of the above parameters, that the laboratory follows the specified methods and that Water Supply Proficiency Testing samples are analyzed by the laboratory for each of the above listed parameters with acceptable results at a frequency of once per year.

If you have any questions or need additional information please call Jim Gindelberger, the Drinking Water Laboratory Certification Coordinator on my staff, at 303-312-6984.

Sincerely,

Tony Medrano, Director
Regional Quality Assurance Program
